# REVIEWS

“We love ASC because they will deliver fast, and they deliver quality products. And if you have a question, they will always pick up the phone”.

“It’s probably the most quality tent we’ve ever had- it’s endured a lot of hard winds, everything, And the printing is phenomenal.”

“We have rugs, flags, and tents. We do so many events and they are so responsive and so great to work with”.

“They have come through for us in so many ways, last minute jobs, anything that I asked them to do including big printing projects we absolutely love these guys”.

“You guys always get the color right, and our yellow is very hard to get right. It lasts for years-we have tents that are 8 years old that still look new”.

“We’ve been using ASC for a long time, and they are the only canopy that withstands the punishment of the desert sun. Very reliable and the communication is great”.

“We’ve been a long time supporter of ASC. From canopies to table covers to feather flags, banners and even stickers-whatever you need, they’ve got it”.

“Best canopies in the business. Why do we use them? We love the team-They’re easy to communicate with and always follow through”.
